TERRAZZO

In the world of interior design, terrazzo tiles are currently at the forefront of fashion trends. Their unique speckled appearance, created by a mixture of chips and aggregates, gives a distinct and artistic look.

These tiles exude a sense of vitality. The random patterns and color combinations within terrazzo tiles bring a dynamic energy to any space.

In luxury hotels, high - end residences, and upscale office buildings, terrazzo tiles are often the choice for those who demand the best in both aesthetics and quality. They are a symbol of refined taste and a statement of luxury in any interior design scheme.

TERRAZZO

TERRAZZO | Sliptech |

Our terrazzo tiles redefine modern interior aesthetics with sophisticated artistic design. Embedded colorful stone aggregates form natural scattered speckles, delivering layered, tactile texture that printed tiles cannot replicate. Polished fine grinding balances soft matte luster and subtle grain variations, injecting vivid visual rhythm into any space. Blending minimalist elegance and raw material charm, they elevate floors and walls for high-end residential and commercial projects alike.

The soft-touch satin-finish surfaces are ideal for all interior applications as well as for new and surprising stylistic combinations.
