

TRAVERTINE

TRAVERTINE

The TRAVERTINE are resistant to scratches and wear, making them suitable for high traffic areas such as hallways, living rooms, and commercial spaces.

Matching In terms of matching, travertine tiles are extremely versatile. They can be paired with a variety of interior design styles. For a classic look, they go well with wooden furniture and marble countertops. The earthy tones of travertine create a harmonious and warm atmosphere when combined with natural materials.

In modern or minimalist designs, travertine tiles can be matched with sleek metal fixtures and glass elements.

Fashion forward In the world of fashion and design trends, travertine tiles are also making a mark. Designers are constantly finding new ways to incorporate these tiles into modern and trendy spaces.

The background is a full-page image of a marbled surface, likely a stone or marble texture. The colors are muted, consisting of various shades of beige, cream, and light brown, with darker, more intricate veining patterns in a taupe or light tan color. The overall effect is one of natural, organic movement and texture.
